04. How to Participate

Complete the official promotion form with the following information:

- Your selection of a reproductive medicine consultation or infertility treatment

Once you submit the form, our team will contact you to explain which services are eligible, answer your questions, and provide pricing and terms.

Submitting the form is free of charge. Our team will contact you as soon as we receive your submission.

05. How the Discount Is Applied

The discount rate is determined by the date payment is made.

Before purchasing services, patients must attend an initial consultation to investigate or confirm a diagnosis.

06. Eligible Services

Please contact us through the form so we can discuss your options. We provide personalized care tailored to each patient’s needs.

Selecting a treatment on the form indicates your interest only. A medical assessment is required.

07. Exclusions

Discounts do not apply to routine gynecological follow-up visits, medications, or services and costs related to gamete or embryo donation.

If a quote includes both eligible and ineligible items, they will be listed separately. The discount will be applied only to eligible items.

08. Existing Patients

Existing patients may participate subject to the terms applicable to eligible services.

Patients may participate while continuing any treatment already underway.

09. Payment Methods

TED bank transfer • Pix • Payment in full

The discount on an infertility consultation is available regardless of whether the patient purchases another service, refers anyone else, or opts in to receive future promotions.

10. Additional Services

Additional services may be provided. A quote will be issued when those services are recommended. If the quote is issued during the promotion period, the services will qualify for the discount rate in effect when they are purchased.

11. Scheduling and Service Delivery

Appointments will be scheduled based on previously communicated availability and the patient's medical needs.

Services purchased under the promotion must be provided within three months of signing the consent agreement and making payment.

Any medical circumstances that prevent services from proceeding will be handled on a case-by-case basis, with due regard for the patient's safety and rights.

12. Medical Assessment and Outcomes

Consultations, tests, and treatments will be conducted based on an individual medical assessment and informed consent.

Participation in the promotion does not guarantee pregnancy, embryo development, a live birth, or any specific outcome.

Patients may choose whether to proceed with the purchase or treatment, subject to applicable legal and contractual terms.

13. Rescheduling, Cancellation, and Refunds

Rescheduling, cancellation, and refund terms will be clearly communicated before purchase.

The rights provided under Brazil's Consumer Protection Code will be upheld, including the right to withdraw within seven days where applicable under Article 49.

Purchasing services at a discount does not automatically result in forfeiture of amounts paid or limit consumer rights.
